The Foundation: How Traffic Becomes Profit

Traffic costs money.

Traffic makes money.

It takes money to make money.

This isn't just a catchy phrase—it's the fundamental truth of online business that separates those who succeed from those who spin their wheels.

The quickest way to make money online affiliate marketing is by sending targeted traffic to your offer. When somebody shows interest in a specific product by subscribing to an email list, or purchasing a product, they become traffic that can be targeted. 🎯

Your mission: Create a website that is worth sending traffic.

A website that is worth sending traffic, is a website that provides value to somebody else.

When you send targeted traffic to a website that provides value, you can leverage that value to generate income.

Step 2: Domain + Web Hosting

Your domain and hosting are the foundation of your online business. Purchase a domain that relates to the product you select to promote—this builds instant trust with visitors who don't know anything about you. A visitor will only click on a link or a button if they trust the website enough to do so.

Trust = Sales

Choose a .com domain whenever possible. Domains start at around $10/Year, but you'll need web hosting for yor site to be live on the internet. You can purchase web hosting and domains from the same provider—many hosting packages include a free domain, saving you money annually.

1

Landing Page

Create a landing page for all of your visitors to land on:

1. Title
2. Subtitle
3. Image
4. Form to collect {name} + {email}

4.1. `Submit` button → Thank You Page

Focus on clarity and compelling copy that speaks to your visitor's needs.

2

Lead Magnet

Offer something valuable for free:

1. eBook (Ask ChatGPT)
2. **PLR product (Private Label Rights)**

This is your leverage to capture email addresses.

3

Email Sequence

Write compelling emails that continue promoting your offers. The first email is sent automatically after a visitor submits their {name} + {email} through the form on your landing page in exchange for your lead magnet. Emails continue to get sent out automatically on a set schedule.

4

Autoresponder

Connect your email to a service:

1. **AWeber**
2. **GetResponse**

Send emails automatically over days and weeks to continuously promote your offers to subscribers.

5

Thank You Page

This is where a visitor lands after subscribing. Include a prominent button that sends subscribers to your affiliate link—this is where conversions happen.

The Funnel Flow: Visitor arrives at Landing Page → Subscribes for lead magnet (free eBook) → Starts receiving automated emails → Sent to Thank You Page → Clicks affiliate links → You earn commissions

Add that to your remaining budget ($3,200 + $1,800) and you have a new total budget = $5,000. Now you have a profit-generating machine that compounds with every new campaign. Notice how your subscriber list grows with each campaign, compounding your results. Your growing list means each subsequent campaign performs better than the last.
